Allowable Subject Matter

The following is an examiner's statement of reasons for allowance:

Claim 1 recites a device comprising an output for providing at least a first output

Art Unit: 2821

signal at a first frequency band and a distinct second output signal at a distinct second frequency band, a first signal channel connected between a first waveguide port and the output, and a distinct second signal channel connected between a second waveguide port and the output, wherein the first signal channel includes a notch filter centered substantially at about the distinct second frequency band and the second signal channel includes a notch filter centered substantially at about the first frequency band.

None of the prior art shows or suggests this device.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
